Agile Workspaces for a smiling generation

Desks | Workstations | Storage | Chairs | Furniture Leasing

The agent for change

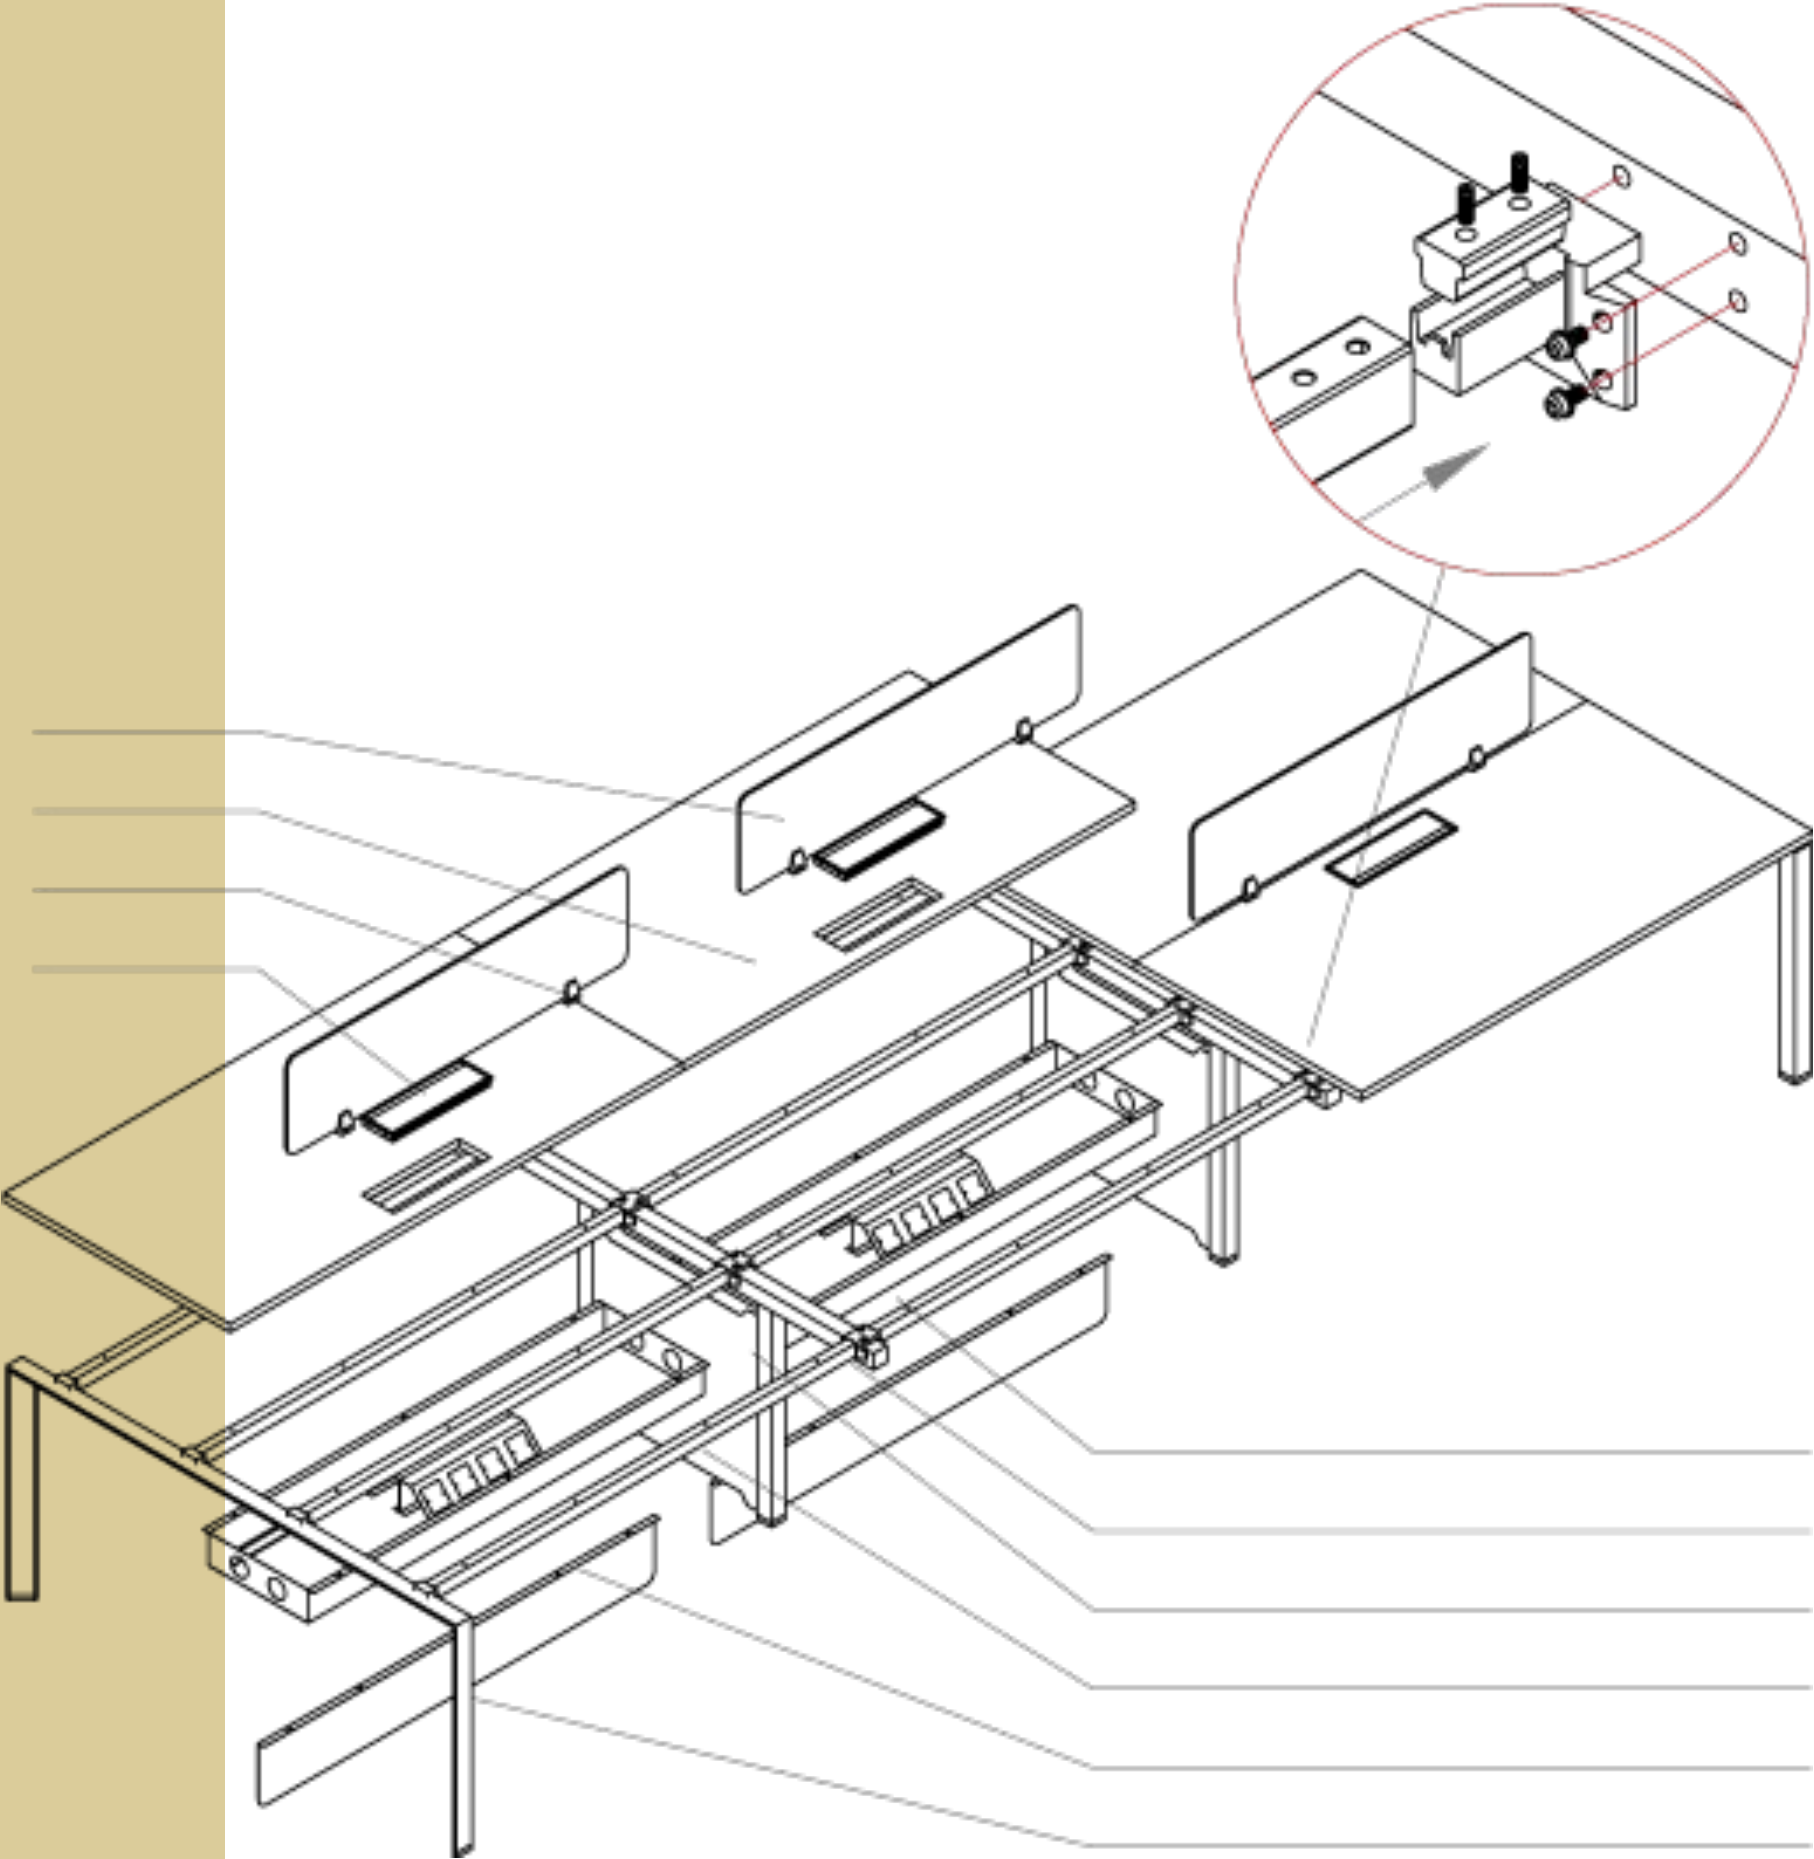

“Change is the only constant”

The generation has changed, the human mind has changed, millennials are charged with creativity. They want to explore, they want to experiment, there is no fear of failure, they want to tread the road seldom travelled. And often that is the road to be on. They work for play and not pay alone. It is often the agent of change that must be welcomed.

Atmosphere strives to be that agent!

Disrupt

“The human mind is designed to reason and for the same reason. It is the only one which can see reason.”

Let your workspace be a boiling bowl of soup kindling with all kinds of flavors. Let the combined fragrance of these flavors come up with newer recipes to dazzle the world with. We at atmosphere keep this in mind and create solutions for the new age office that allows this symbiosis and creates the next disruption for your company.

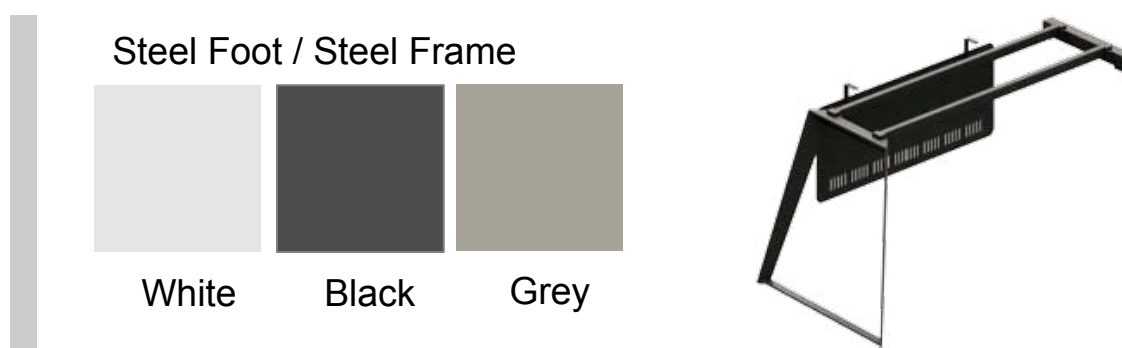

CIRRO

CLEAN LINES ERGONOMIC FRAME

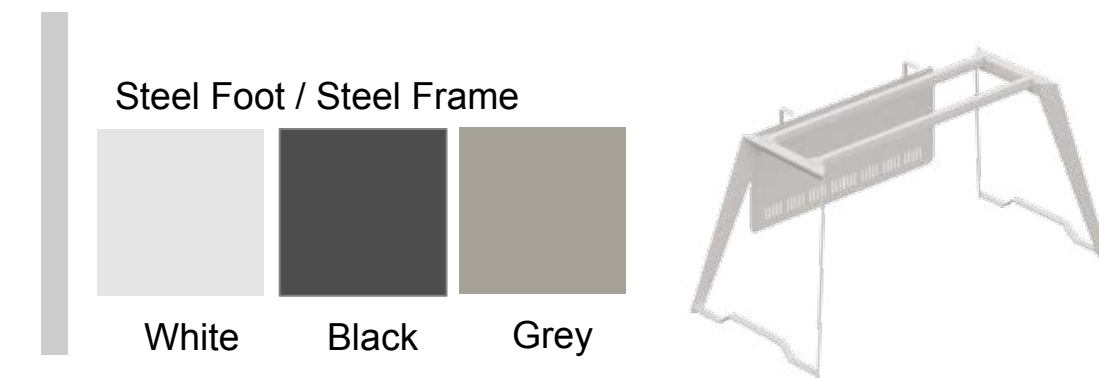

Conceptual, Intentional and Adaptable - The Cirro series perfectly encapsulates the idea of modern office spaces. The flexible bench desks open up the office space making it more imaginative and enables the fostering people's productivity.

The muted colour palette provides a perfect complement to shape the carving of the desking furniture. The colour also speaks of power in the workplace, making it the perfect choice for those who taste the meaning of life.
